

**Annual Report
FISCAL YEAR 2004**

**RURAL VOLUNTEER FIRE DEPARTMENT ASSISTANCE PROGRAM
(HB 2604)**

I. OVERVIEW

The Rural Volunteer Fire Department Assistance Program (House Bill 2604) was established in 2001 by the 77th Texas Legislature. It provides \$15 million annually for training and equipping volunteer fire departments throughout Texas. It is funded through the Rural Volunteer Fire Department Assistance Fund, which is composed of revenue derived from an assessment on certain property and casualty insurers. The program is administered by the Texas Forest Service.

The program was designed in the Spring of 2002, in consultation with statewide advisory groups composed of firefighters, community leaders, educators, representatives from the State Firemen's and Fire Marshals' Association, Texas Engineering Extension Service, and the Texas Commission on Fire Protection. The program is designed to provide cost-share grants to volunteer fire departments in the following categories:

Fire Trucks	90% of the actual cost not to exceed certain maximums
Fire Truck Chassis / Slip-On Modules	90% of the actual cost not to exceed certain maximums
Fire Equipment / Rescue Equipment	75% of the actual cost not to exceed certain maximums
Firefighter Protective Clothing	75% of the actual costs not to exceed certain maximums
Firefighter Training Tuition / Fire Training Libraries	100% of the cost of approved certified courses; subject to certain maximums
Dry Hydrants	100% of the costs of components, subject to certain maximums

II. ACTIVITY

In FY 2004, funds were apportioned by Region at the beginning of the year as follows:

<u>WEST TEXAS</u>	<u>CENTRAL TEXAS</u>	<u>EAST TEXAS</u>
20%	55%	25%

These allocations correspond to the location of the state's approximate 1,800 volunteer fire departments. At year end, actual grant approvals by Region were as follows:

<u>WEST TEXAS</u>	<u>CENTRAL TEXAS</u>	<u>EAST TEXAS</u>
25%	54%	21%

In FY 2004, special consideration was extended to West Texas. This region needs water transport capability in the form of Tankers and Large Brush Trucks. These vehicles are expensive. In order to address this special need, additional grants were approved for the region.

Additionally, the following program changes were implemented:

- 1) Training Tuition caps were increased to \$3,500 per department per qualified school. This was up from \$2,500 in FY 2003.
- 2) The grant application process was modified to require a map of each applicant's primary 911 protection area.

III. STATUS

The Texas Forest Service conducted funding meetings in September, January, May, and July of FY 2004. The attached summaries show the grant approvals by category, region, fire department, and county. The following requests for assistance were funded:

<u>Category</u>	<u>Number of Grants</u>	<u>Number of Items</u>	<u>Cost-Share \$ Value</u>
Fire Trucks	137	137	\$10,167,022
Fire Truck Chassis / Slip-On Modules	80	80	\$1,600,978
Fire / Rescue Equipment	360	1,698	\$1,576,737
Personal Protective Equipment	239	3,226	\$253,467
Training	712	3,017 Students 42 Libraries	\$882,606
TOTAL	1,532 Grant Requests Funded		\$14,480,810 in HB 2604 Grant Funds Allocated

IV. PLANS FOR FY 2005

In FY 2005, the following program changes will be implemented:

- 1) Cost-share rates will increase for Structural PPE and Wildland PPE.
- 2) The minimum standard for Fire Trucks will be modified to require a larger pump.
- 3) A cost-share differential will be implemented for Compressed Air Foam System (CAFS) equipped vehicles.

V. LEGISLATIVE NEED

The HB 2604 enabling legislation created the Rural Volunteer Fire Department Assistance Fund for the sole purpose of supporting the Rural Volunteer Fire Department Assistance Program. The current General Appropriations Act does not provide the requisite authority to spend unexpended balances in this fund. Once the fiscal year closes, any commitments that are released remain in the account but may not be spent. This has an adverse impact on the distribution of grants at the end of the year.

The Texas Forest Service will request UB Authority for this Fund so that rural Texas communities will receive the full measure of benefit from this program.

The Legislative Budget Board and the Governor's Office of Budget Planning & Policy issued instructions for the 2006-2007 Biennium Legislative Appropriation Request, which mandate a 5% reduction in the base-funding requests for General Revenue related funds (subsequently defined to include General Revenue and General Revenue – Dedicated). As a result, the base-funding request for TFS includes a 5% (\$1.5 million) reduction in Fund 5064. Under provisions of Article 5.102 of the Texas Insurance Code, the annual revenue for Fund 5064 is set at \$15 million per year and by law may only be used to support the Rural Volunteer Fire Department Assistance Program. The revenue may not be used for any other purpose and therefore cannot contribute to buffering any forecasted shortfalls in state revenues or other funding needs of the State. It is of concern to allow the Fund to collect \$15 million annually yet restrict expenditures to 95% of the annual sum. Any funds not expended are locked in the Fund and are not transferable. The Texas Forest Service has requested that the mandated 5% reduction in spending levels for Fund 5064 be restored and that the full balance of the Fund be used as intended by state law to support the Rural Volunteer Fire Department Assistance Program.

VI. EFFECTIVENESS

The Rural Volunteer Fire Department Assistance Program is a highly effective program and is destined to become one of the most significant legislative initiatives of Texas government in the 21st century. In its first two years of operation, it has placed over 400 fire trucks in service, has provided safety gear to an estimated 6,500 firefighters, and has helped train over 4,000 firefighters.

The Texas Forest Service has leveraged HB 2604 funds with federal USDA and FEMA/USFA funds, to make this program very friendly and responsive to the needs of Texas communities. It has also developed a simple and straightforward grant application process that makes it easy for rural fire departments to enroll.

The Program has experienced overwhelming support and enrollment from Texas volunteer fire departments. There are currently huge request backlogs for fire truck and radio communications grants. The current \$61 million demand for grant funds far exceeds the annual appropriation of \$15 million. This will require many applicants to wait three to five years before receiving a grant for a fire truck.
