

**ANNUAL REPORT
FISCAL YEAR 2006**

**RURAL VOLUNTEER FIRE DEPARTMENT ASSISTANCE PROGRAM
(HB 2604)**

I. OVERVIEW

The Rural Volunteer Fire Department Assistance Program (House Bill 2604) was established in 2001 by the 77th Texas Legislature. It provides \$15 million annually for training and equipping volunteer fire departments throughout Texas. It is funded through the Rural Volunteer Fire Department Assistance Fund, which is composed of revenue derived from an assessment on certain property and casualty insurers. The program is administered by the Texas Forest Service.

The program was designed in the Spring of 2002, in consultation with statewide advisory groups composed of firefighters, community leaders, educators, representatives from the State Firemen's and Fire Marshals' Association, Texas Engineering Extension Service, and the Texas Commission on Fire Protection. The program is designed to provide cost-share grants to volunteer fire departments in the following categories:

Fire Trucks	90% of the actual cost not to exceed certain maximums
Fire Truck Chassis' / Slip-On Modules	90% of the actual cost not to exceed certain maximums
Fire Equipment / Rescue Equipment	75% of the actual cost not to exceed certain maximums
Firefighter Protective Clothing	90% to 75% of the actual cost not to exceed certain maximums
Firefighter Training Tuition / Fire Training Libraries	100% of the cost of approved certified courses, subject to certain maximums
Dry Hydrants	100% of the costs of components, subject to certain maximums

II. ACTIVITY

In FY 2006, funds were apportioned by Region at the beginning of the year as follows:

<u>WEST TEXAS</u>	<u>CENTRAL TEXAS</u>	<u>EAST TEXAS</u>
20%	55%	25%

These allocations correspond to the location of the state's approximate 1,800 volunteer fire departments. At year-end, actual grant approvals by Region were as follows:

<u>WEST TEXAS</u>	<u>CENTRAL TEXAS</u>	<u>EAST TEXAS</u>
23%	52%	24%

III. STATUS

The Texas Forest Service conducted funding meetings in November, January, and July of FY 2006. Special Emergency Grants were approved continuously beginning in December 2005 in response to the catastrophic wildfire disasters occurring across the state. Emergency grants were issued for Personal Protective Equipment, fire trucks, fire equipment, and repairs to fire equipment. The attached summaries show the grant approvals by category, region, fire department, and county. The following requests for assistance were funded:

<u>Category</u>	<u>Number of Grants</u>	<u>Number of Items</u>	<u>Cost-Share \$ Value</u>
Fire Trucks	132	132	\$10,879,795
Fire Truck Chassis / Slip-On Modules	49	49	\$918,706

Fire / Rescue Equipment	358	893	\$1,434,052
Personal Protective Equipment (PPE)	476	10,613	\$766,873
Training	1,136	5,135 Students 22 Libraries	\$1,154,982
TOTAL	2,151 Grant Requests Funded		\$15,154,408 in HB 2604 Grant Funds Allocated

IV. PLANS FOR FY 2007

In FY 2007, the Texas Forest Service in conjunction with a fire service training advisory committee, will re-examine and evaluate the funding process for training tuition grants.

V. LEGISLATIVE NEED

The Rural Volunteer Fire Department Assistance Program has a 4-year waiting list of applicants seeking grants for fire trucks. Many applicants have been waiting in line for over four years. The purchasing power of the original \$15 million allocation has steadily declined as a result of price inflation. The program is underfunded relative to the statewide demand for grant assistance.

VI. EFFECTIVENESS

The Rural Volunteer Fire Department Assistance Program continues to be a highly effective program and is recognized nationwide as one of the most successful legislative initiatives of Texas government in the 21st century. In its first four years of operation it has placed in service over 720 fire trucks, has provided safety gear to an estimated 20,000 firefighters, and has helped train approximately 13,000 firefighters. In 2006, the USDA Forest Service awarded the program its national Franklin Award for outstanding service in protecting underserved rural communities.

The Texas Forest Service has leveraged HB 2604 funds with federal USDA funds to make this program very friendly and responsive to the needs of Texas

communities. It has also developed a simple and straightforward grant application process that makes it easy for rural fire departments to enroll.

The Program has experienced overwhelming support and participation from Texas volunteer fire departments. There are currently huge grant application backlogs for fire trucks and radio communications equipment. The current \$56 million demand for grant funds far exceeds the Program's annual appropriation of \$15 million. This gap between demand and limited funding will require many applicants to wait three to five years before receiving a grant for a fire truck.
